

Våra mallar är tillverkade för Adobe Illustrator. Om du använder ett annat program för att tillverka ditt original kan du enkelt göra dina egna mallar utifrån de mått som finns angivna på nästa sida för respektive storlek.

Här kommer en checklista på vad du måste tänka på inför tillverkning av original för badge.

- Originalet måste följa vår mall
- Originalet skall levereras som PDF eller Illustrator
- Vektorisera hela originalet, inklusive typsnitt, innan du sparar
- Fyll hela arket med ditt original (1 motiv per sida i normala fall)
- Tag bort alla guide-linjer innan du sparar UTOM den svarta linjen*

*Den svarta linjen är vår stanslinje och **MÅSTE** vara kvar.

Viktigt att tänka på:

Skapa ditt original i CMYK

Tilldela färgprofil FOGRA39

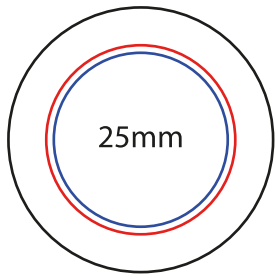

Storleken på ditt original skall vara i skala 1:1 och i A4-format

Bifoga alltid skärlinje

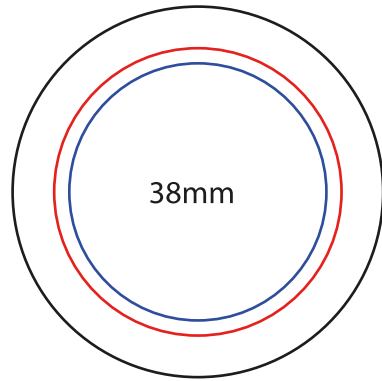

Se till att ditt motiv ligger innanför den rekommenderade bildytan.

OBS! Exakt centring kan INTE garanteras. Vissa motiv lämpar sig mindre bra, t ex cirklar och ramar, eftersom dessa uppfattas som ocentrerade även vid mycket små avvikelser.
